DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on September 29, 2003, was filed and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-7, 14, 15, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Lipkowitz (5,769,264).

Lipkowitz (5,769,264) discloses a beverage holder comprising a panel (18) having a plurality of slots (48, 48) (at least four slots) having C-shape or a circular shape facing different directions, and a support element (34).

4. Claims 1-7, 14, 15, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Wissman (1,659,344).

Wissman (1,659,344) discloses a beverage holder comprising a panel having a plurality of slots (6a, 6a) (at least four slots) having C-shape or a circular shape facing different directions, and a support element (10).

5. Claims 1-6, 14, 15, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Rake (1,305,164).

Art Unit: 3652

Rake (1,305,164) discloses a beverage holder comprising a panel having a plurality of slots (8,9) (at least four slots) having C-shape or a circular shape facing different directions.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 8-13,16,17,19, and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wissman (1,659,344) in view of Sporttolari (2,336,649).

Wissman (1,659,344), as presented in section 4 above, does not show *at least three tapered support elements positioned around the panel*. However, Sporttolari (2,336,649) shows *at least three tapered support elements positioned around the panel* and it would have been design choice to provide a tapered support element on the Wissman (1,659,344) as taught by Sporttolari (2,336,649) so that cake cones can be positioned in the support elements.

8. Claims 7-13,16,17,19, and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rake (1,305,164) in view of Sporttolari (2,336,649).

Rake (1,305,164), as presented in section 5 above, does not show *at least three tapered support elements positioned around the panel*. However, Sporttolari (2,336,649) shows *at least three tapered support elements positioned around the panel* and it would have been design choice to provide a tapered support element on the Rake (1,305,164) as

Art Unit: 3652

taught by Sporttolari (2,336,649) so that cake cones can be positioned in the support elements.
